

Missed Marking!

You were absent when I collected all the books in. I carried out an end of topic review, which I will do to this book after this lesson.

To help out you should:

- Check all dates and titles are underlined with a ruler.
- All loose sheets are stuck in.
- Correct any spellings highlighted
- Any previous marking comments have been acted upon.
- Complete the sections below

Favourite topics: (time to show off!)

List two topics you have done in the first term that you are happy with. Demonstrate your understanding by making and answering a question on them.

Topic

Question/Answer

Students fill in this section to highlight areas they are confident in

Extra practise:

Look back through your book and find a topic which you feel you don't fully understand YET and need more help on. The more details the better and I will give specific hints for you here....

Students should highlight work they still struggle on – if they include the date and title of the lesson it helps!

Puzzle:

If you have completed all the previous sections you can give this puzzle a go!

I include a puzzle here to do if they finish in time so they can practise their problem solving skills.

Try:

(after I have marked your book I will add a “try question” here for you to complete)

When you collect their books in write your follow up question here. Use the other sections to see what students have already said! This saves lots of time
