

Longest Line

$\frac{2}{10} + \frac{3}{10}$	$\frac{9}{32} - \frac{1}{4}$	$\frac{1}{2} + \frac{3}{5}$	$\frac{3}{4} - \frac{1}{2}$	$\frac{3}{5} + \frac{3}{4}$
$9\frac{3}{32} + 1\frac{3}{4}$	$\frac{4}{12} + \frac{6}{12}$	$\frac{4}{5} + \frac{1}{3}$	$5\frac{1}{8} - 3\frac{9}{16}$	$\frac{3}{8} + \frac{5}{16}$
$7\frac{1}{4} - 3\frac{1}{2}$	$\frac{1}{2} - \frac{1}{10}$	$4\frac{1}{8} + 5\frac{15}{16}$	$\frac{1}{3} + \frac{1}{3}$	$\frac{3}{8} - \frac{3}{16}$
$\frac{1}{2} + \frac{13}{16}$	$\frac{5}{8} - \frac{1}{4}$	$9\frac{3}{4} - 6\frac{1}{2}$	$\frac{1}{2} + \frac{3}{4}$	$4\frac{3}{8} + 1\frac{3}{32}$
$\frac{1}{5} + \frac{2}{5}$	$\frac{2}{3} - \frac{1}{2}$	$\frac{1}{2} - \frac{2}{4}$	$\frac{1}{4} + \frac{1}{8}$	$\frac{2}{9} + \frac{6}{9}$

Rules:

- Take it in turns with your partner to write an answer in any box you choose
- You can't write the same answer in a box that your partner has done
- If you disagree with your partner you can try and steal the box by writing your answer in
- The longest line of correct answers at the end wins (diagonals don't count!)
